

COMMUNITY GRANT REQUEST
Guidelines and Application Form
Greenwood PTA – 2017-18 School Year

For the 2017-18 school year, the PTA has designated a fund of \$2,500 for Community Grants. This money is available for small projects and materials that were not identified when the budget was constructed in the spring. The maximum amount of these grants is \$500. In the past, such funds have supported projects such as the “self-help” crossing flags at nearby intersections and cubby boxes for a classroom.

We encourage anyone with a small project to apply for funding. All members of the school community (parents, teachers, staff, and students) can apply for these grants. Proposals are accepted throughout the year, so long as funds remain in the community-grants “pot.” All proposals are subject to approval by the PTA Board.

To make a request, answer the questions on the form below and submit it to the PTA president or treasurer at least one week before a board meeting. Board meetings are held monthly, and meeting dates are posted on the school’s on-line calendar. We require that you submit the proposal in writing or electronically, as well as verbally, so there is a record of the proposal.

If your request is approved, we expect you to fulfill it in the current year – typically funds are not held over for future school years.

If you have larger project or equipment in mind, please contact a board member to learn about other funding options. Requests for a larger project generally involve a more detailed application and approval by the full PTA membership.
